Short Biography

I am a fourth-year undergraduate student in Electronics Information Engineering at HUST. Currently, I am a visiting student in CAIRI AI Lab under Chair Professor Stan Z. Li at Westlake University. My research interests include visual representation learning, especially for efficient deep network architecture design as well as self-supervised learning, and AI+ cross-disciplinary applications. Previously, I worked on few-shot semantic segmentation under Prof. Xinggang Wang at EIC, HUST. I was a visiting student at SIAT-MMLab, Shenzhen Institute of Advanced Technology (SIAT), Chinese Academy of Sciences (CAS) in the summer of 2021. I also conducted research internship at Key Lab of Digital Earth Science, CAS. My research goal is to pursue solid AI research that makes positive changes to the community.
