## Short Biography

I am a fourth-year undergraduate student in Electronics Information Engineering at HUST. My research interests are within efficient visual representation learning and cross-disciplinary AI applications. Currently, I am a visiting student at CAIRI AI Lab under Prof. Stan Z. Li at Westlake University. Previously, I worked on few-shot semantic segmentation under Prof. Xinggang Wang. I was a visiting student at Multimedia Laboratory (MMLab), Shenzhen Institute of Advanced Technology (SIAT), Chinese Academy of Sciences (CAS). I also conducted an internship at Key Lab of Digital Earth Science, CAS (2020 - 2021). My goal is to pursue solid AI research that makes positive changes to the community.

## Education and Degrees

2019 – 2023 **B.Eng. in Electronics Information Engineering**, Huazhong University of Science and Technology.

- **The 1<sup>st</sup> year**, I focused on the development of modern science and the philosophical science to build a deep and clear recognition of the root of modern science & engineering by myself.
- **The 2<sup>nd</sup> and 3<sup>rd</sup> years**, I tried to go through diverse research fields such as complex network, machine learning, deep learning, computer vision across different labs. Finally, I determined my research interests within the scope of deep learning and computer vision.
- I have achieved good grades in AI-related courses: Engineering training (94/100), Software Project (92/100), Python programming (87/100), Machine Learning (85/100), Circuit Testing Lab (84/100) etc.
