Short Biography

I completed my B.Eng. in Electronic and Information Engineering (Machine Intelligence) at HUST. Currently, I am a visiting student in CAIRI AI Lab supervised by Chair Prof. Stan Z. Li at Westlake University. My research interests include visual representation learning, especially for efficient network architecture design as well as self-supervised pre-training, and AI for science applications. Previously, I worked on few-shot semantic segmentation supervised by Prof. Xinggang Wang at HUST. I was a visiting student at SIAT-MMLab, Shenzhen Institute of Advanced Technology (SIAT), Chinese Academy of Sciences (CAS) in the summer of 2021. I also conducted research internship at Key Lab of Digital Earth Science, CAS. My research goal is to pursue solid AI research that makes positive changes to the community.
